

Title	Biodiversity Credits Market Sales Dashboard
Alternative title(s)	BAM Sales Dashboard
Abstract	The Biodiversity Credits Market Sales Dashboard (BAM market sales dashboard) provides current sales data for biodiversity credits created using the Biodiversity Assessment Method (BAM). The BAM market sales dashboard is a web-based tool giving access to biodiversity credit market data registered by the Environment Agency Head in the Biodiversity offsets scheme (BOS) public registers. The BAM market sales dashboard uses drag-and drop functionality to make it easy to extract and present biodiversity credit market data as dynamic and interactive data visualisations. The BAM market sales dashboard comprises 3 pages presenting information about the: • market overview • latest price for ecosystems credits • latest price for species credits. The latest price is at which either a species or ecosystem credit was bought or sold for transference, as defined by section 6.19 of the Biodiversity Conservation Act 2016.
