| <b>Title</b>                                  | Landscape - Modified (DEM-S) Elevation layer                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Abstract</b>                               | <p>This is a modified product of Geoscience Australia's Smoothed Digital Elevation Model (DEM-S)<br/> <a href="https://ecat.ga.gov.au/geonetwork/srv/eng/catalog.search#/metadata/72759">https://ecat.ga.gov.au/geonetwork/srv/eng/catalog.search#/metadata/72759</a>.</p> <p>The DEM-S layer has been modified by removing negative values by setting these values to zero. This layer has been snapped to a common extent to align with grids in the SVTM Modelling Grid Collection.</p> |

| Additional information source | <p>_noExcursions means includes the area down in Jervis Bay that is often missed in NSW-only products. ACT also included.</p> <p>_noNegValues means standard coastal mask applied from the east coast STVM mapping, and within this mask all negative elevation values were converted to zero, while all marine waterbodies were assigned a nodata value.</p> |
